

Task Deadline: 4 October 2026

Backend

Task - Student Management System [CURD Operation with Validation]

Field	Validation
Student Name	Required, 2–50 characters
Enrollment No	Required, unique
Email	Required, valid email, unique
Mobile	Required, exactly 10 digits
Date of Birth	Required
Age	18–60
Gender	Male / Female / Other
Course	Dropdown
Specialization	Required
Semester	1–6
Address	Required
City	Required
State	Required
Skills	Select at least 1 [Radio Button]
Hobbies	Select at least 1 [Radio Button]
Passport Photo	Required, JPG/PNG, max 2 MB

You have to perform CRUD operations in the Student Management System (SMS). For the Student Management System, you can define the complete student form configuration in JSON, including each field, its validation rules, and validation messages.

Student Management System – Frontend Form

Create a **Student Management System (SMS) form UI in Figma** for the frontend. The form should provide a clean, professional, and user-friendly design for adding and managing student information.

The form should include the following fields:

- Student Name
- Enrollment No
- Email
- Mobile
- Date of Birth
- Age
- Gender
- Course [Dropdown]
- Semester
- Address
- City [Dropdown]
- Pincode
- Hobbies [Radio Button]
- Passport Size Photo
